How to apply

Welcome to Global International College

I am delighted that you are interested in joining our sixth form college.

I want to assure you that studying at Global international College will be one of the exciting phases of your life as it will lay the foundation for a very successful transition into the University of your Choice. We are your bridge to top Universities all over the World. To date, we have placed over 1200 graduates into the best and most prestigious universities in UK, Hungary, Ukraine, Canada, USA, Caribbean and Dubai.

At Global, we understand that the transition from Secondary school to University can be a difficult process for secondary school students and their families. A lot of students complete SS3 at the age of 16 leaving them ill prepared to face the rigors of university life at that age, as most Universities abroad do not accept students into the first year of their courses until they are 18 years old, we help you to prepare adequately before proceeding abroad for higher education.

Global International College is a University Preparatory college with expertise in preparing Nigerian children for universities all over the world. Our focus is to provide a co-educational boarding and day college within a disciplined, friendly and nurturing learning environment in Lagos and Abuja.

At Global, we believe, that the foundation of a successful career is the ability of the student to obtain the right qualification needed by the university most suitable for the student. We therefore assist students right from here in Nigeria to obtain good grades in qualifying exams for the

institutions abroad in the following courses:

- International Degree Foundation Program for admission into UK and Canadian Universities
- International Medical Foundation Program – IMFP for admission into Hungarian universities
- Cambridge Advanced Level Program - A Level for admission into Nigerian, UK and USA Universities
- Cambridge IGCSE Programme - for Admission into DFP & A Level Programmes
- SAT/TOEFL: For admission into USA and Dubai Universities.

At Global, we expect you to work very hard but we also believe that there is also a time for fun, we provide you with opportunities to take part in curricular activities such as sports, music, drama and dance as well as visits to places of interest locally, thereby ensuring that you are spiritually, socially, emotionally mature and physically equipped to meet the challenges of university academic life in a new country.

Visa Counselling: We not only guide you through the admission process, but we also assist you in visa counselling with a 98% success rate.

I firmly believe that you deserve the best and we are fortunate to have a brand new state of the art building with the most up to date technology at our new campus at LEEKI ready for you when you resume.

I look forward to welcoming you .

Dr. Anthony Adeola
Director of Studies

YOUR GIFT THEIR FUTURE

One of the greatest gift any parent can give to a child is the gift of quality education. Quality education will enable the child enjoy great privileges in the future and deep insight into areas otherwise impossible for others. All these benefits coupled with the leadership training that would have been acquired will position the child for unstoppable success in the future.

Our role at Global International College is to bring all these into reality by working towards developing the latent potentials in our students and turning them into attributes identified with leaders. Most of the students would normally arrive in the college, fresh from secondary school with child like attributes. We recognise that if these attributes are not confronted and dealt with, it will create a major challenge for them as they dwell in an environment where they are expected to be totally responsible for their daily actions.

In as much as we focus vigorously on ensuring that our students emerge with very high academic grades, our efforts are also extended to preparing them for life beyond what they are currently used to, a life that will determine howthey will fare in the future.

Finally, it is our honour and privilege to be granted this very unique opportunity of helping to shape the future of your very special gift.(Your children)

Mr Afolabi Andu
Executive Director,
Global International College
Abuja Branch

A Warm welcome to **Global International College**

I am pleased to welcome our new set of students to join us for a unique opportunity to receive an outstanding education in our brand new premises in Lekki.

Founded in 1999, Global International College with campuses in Lagos and Abuja is a top college boasting university placement for over 95% of its graduates to prestigious universities in UK, USA, Canada, Dubai, Caribbean and Hungary.

GIC has qualified staff with experience in preparing students for their degree courses in their chosen universities. At Global we emphasise the development of the student as a whole and therefore ensure a balance between their academic, spiritual and physical growth within a disciplined, caring and mature environment.

We welcome you into the Global family where you will experience the benefits of an excellent education in a caring, nurturing environment at an affordable price

Abolaji Osime
Chief Executive Officer / Chairman

OUR COLLEGE

Global International College (GIC) was established in 1999 as an independent sixth form college sited in Ikoyi, Lagos State, Nigeria. The college expanded in 2001 and started another campus in Abuja, the Nation's Capital. The college is a co-educational independent boarding and day college. The Principal aim is to prepare students for entrance into their chosen universities.

The college is one of Nigeria's leading independent colleges and has built up a strong reputation for Degree Foundation, Cambridge 'O' and 'A' Level and IGCSE courses, placing students into universities in United Kingdom, Europe, USA, Hungary and Canada. The Degree Foundation Programme (DFP) is being offered as an alternative to A-Levels for entry into the UK universities.

Vision Statement

Affirming and building upon its ethos and foundation, Global College will become the recognised leader in transformative education of the whole person through excellent education, community participation and development of leaders with integrity.

Mission Statement

The mission of Global College is to educate and develop the whole child. Our students will be equipped to become transformative leaders, living ethical useful and fulfilling lives with a strong sense of purpose and responsibility.

A LEVEL COURSES 1+1

A levels is the worldwide qualification accepted in all universities, The Global A level programme is designed for students who want to study the more competitive and demanding courses like Medicine, Pharmacy, Dentistry, Veterinary Sciences and Architecture. Students can spend one year at Global for A Levels and progress to any of our partner sixth form colleges in the UK to complete the 2 year of the two-year programme and progress to top UK universities. Our partners have an excellent track record of students progressing to top universities including UCL, Oxford, Cambridge, London School of Economics and Imperial College.

Private tuition

- We provide private tuition for students on a one on one basis in most subjects. This allows our students to work at their own pace, it also enables students to take a course outside normal teaching hours such as weekends and during holiday period
- Private tuition can also be supplementary to lessons and act as a valuable tool in areas students require more help
- It is also valuable when teaching students on holidays from schools abroad in syllabuses different from the one taught in the college
- Fees are charged per hour.

DEGREE FOUNDATION PROGRAMME

PATHWAY TO

UK UNIVERSITIES

The Degree Foundation Programme (DFP)

The University Degree Foundation is designed for the students who have completed WAEC or IGCSE and are looking forward to gaining entry into a UK University.

The Degree Foundation Programme is particularly therefore suitable for students who wish to follow a fast track programme which broadens their knowledge, develops their practical skills and provides them with a sound educational base for degree level study.

These courses start in September or January and are designed to help students gain access into British Universities.

Programme of study

Students study five or six modules in total: 3 minor modules in Mathematics, IT and Communication Skills then choose two or three major modules that are relevant to their intended degree course

What can I study?

The courses you study for DFP are usually linked to what you want to study at the university. The structure of the Degree Foundation Programme at Global is as follows:

Compulsory subjects i.e. Mathematics, Communication skills and Information Technology plus two or three subjects from the following pathways depending on their career

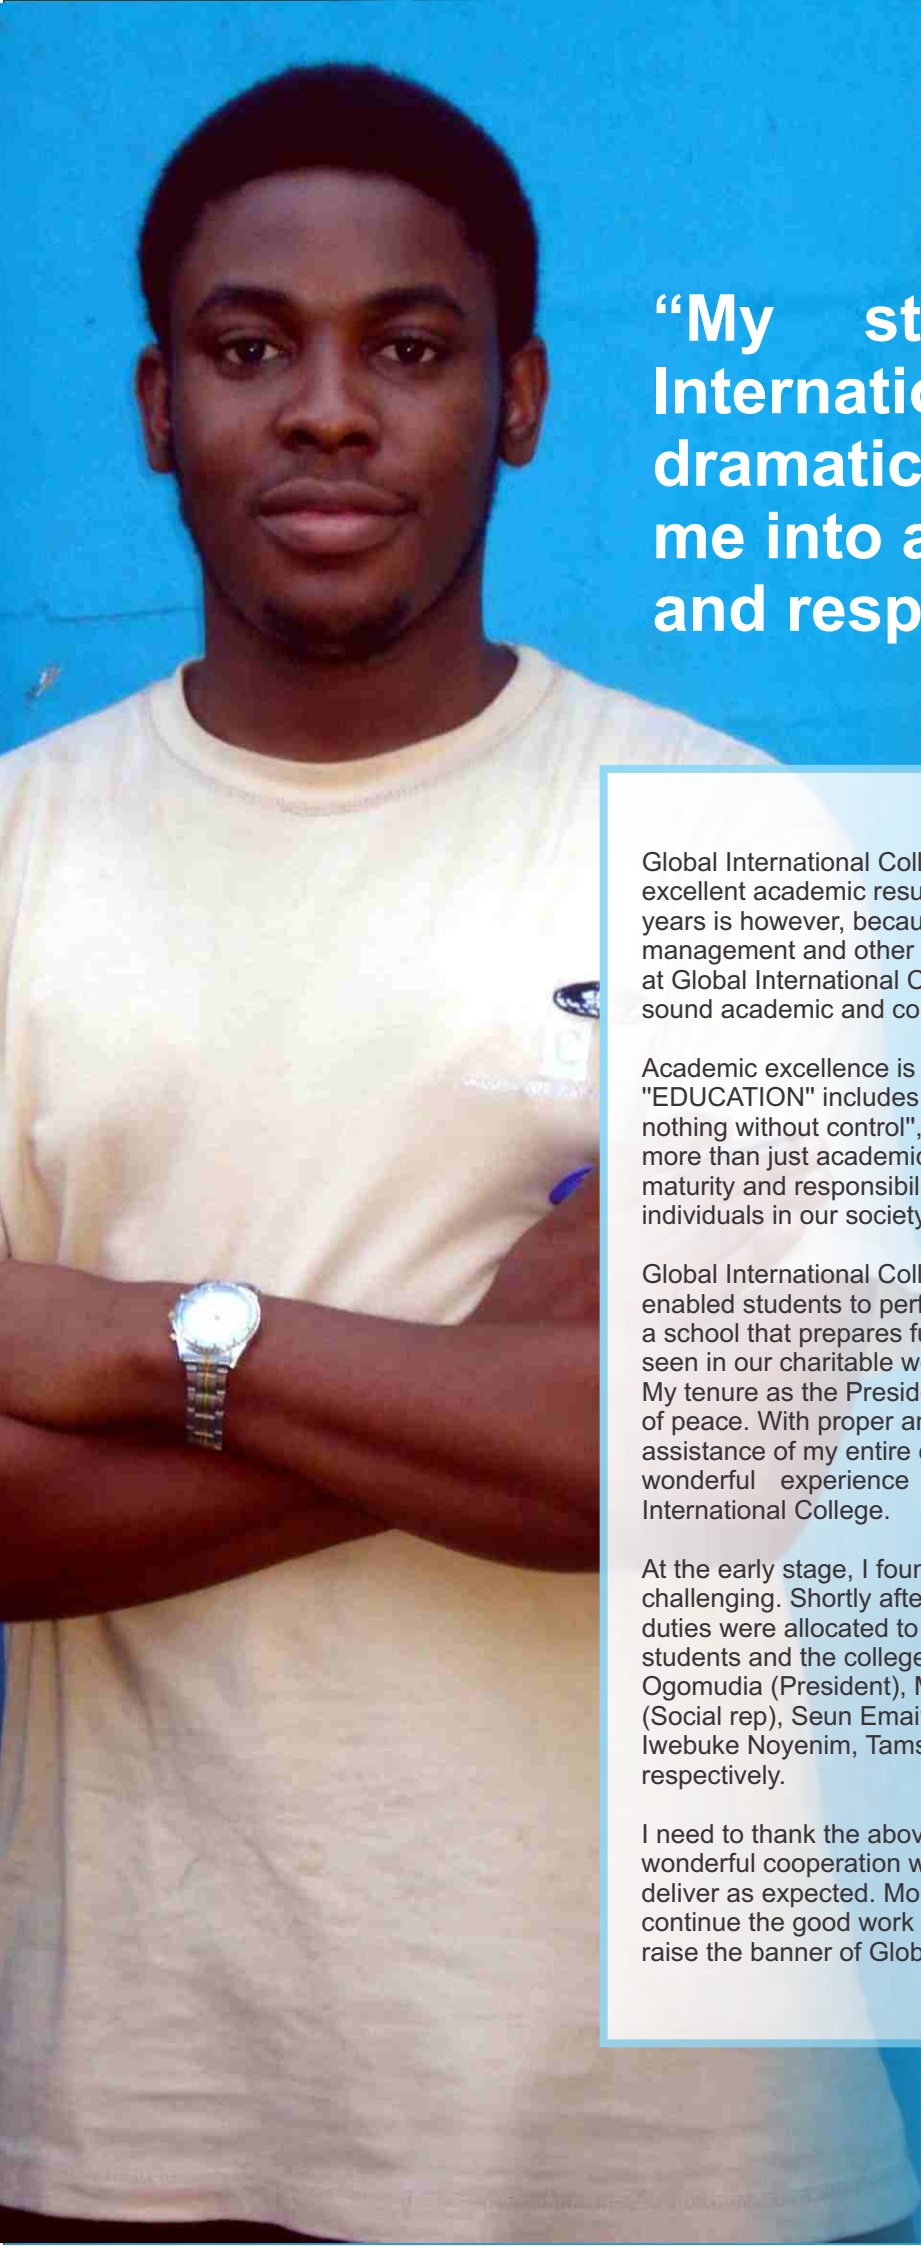

DEGREE/CAREER	DEGREE PROGRAMME, PATHWAYS RECOMMENDED
	PART A
1. Biochemistry, Chemistry, Biometric, pharmacy, Biology, Nursing, Medical Science	<u>SUBJECTS REQUIRED</u> Biology, Chemistry, Physics, Mathematics for mathematicians
2. Biochemistry and related courses	PART B <u>SUBJECTS REQUIRED</u> Biology, Chemistry, Physics and Mathematics for Mathematicians
3. Engineering and Related courses	PART C <u>SUBJECTS REQUIRED</u> Technical Drawing, Chemistry, Physics, Computing & Mathematics for Mathematicians
4. Computing	PART D <u>SUBJECTS REQUIRED</u> Computing, Physics & Mathematics for Mathematicians
5. Accounting, Business Studies, Law, Economics, Leisure & Tourism, English, Humanities, Mass Communication, International relation and Other related courses	PART E <u>SUBJECTS REQUIRED</u> Economics, Accounting, Law, Business studies, & Auxiliary Mathematics

Those are examples of tuition and accommodation fees in some of our universities, kindly note that fees change at discretion of the universities.

“My stay at Global International College has dramatically transformed me into a more social, vocal and responsible person”

Global International College is a sixth form college aimed at producing excellent academic results. This visible academic excellence over the years is however, because of the high quality of our teachers, management and other staff members. In the light of this, our excellence at Global International College is possible because of a comfortable, sound academic and conducive environment.

Academic excellence is the primary objective but however, the word "EDUCATION" includes other factors. It is usually said that "Power is nothing without control", and as such Global International College offers more than just academic excellence. It offers a chance for discipline, maturity and responsibility to make its students eligible and responsible individuals in our society.

Global International College is equipped with good facilities which have enabled students to perform several academic activities. In my view, it is a school that prepares future leaders and philanthropists as this may be seen in our charitable works and community services from time to time. My tenure as the President of Global International College has been that of peace. With proper and effective governance coupled with the assistance of my entire cabinet members, we have been able to have a wonderful experience during our academic sojourn at Global International College.

At the early stage, I found college politics and campaigning very challenging. Shortly after being elected as the college president, several duties were allocated to me, to further create efficiency in serving the students and the college at large. The cabinet consists of myself Andrew Ogomudia (President), Michael Nsaka (Vice-President), Omare Edirin (Social rep), Seun Emaiye (Sports rep), Damilola Ojejinmi (Class rep), Iwebuke Noyenim, Tams Oguara, and Dabor Kevwe (Hostel reps) respectively.

I need to thank the above mentioned cabinet members for their wonderful cooperation which without them, I would not have been able to deliver as expected. More power to your elbow. It is our sincere desire to continue the good work started here anywhere we found ourselves, to raise the banner of Global International College and Nigeria in general.

ANDREW EFEMONA OGOMUDIA
President GIC Lagos Campus
2009/2010

CANADIAN FOUNDATION PROGRAMME

PATHWAY TO

CANADIAN UNIVERSITIES

INTRODUCTION

The Canadian University Degree Foundation programme is designed for students who have completed WAEC, and are looking forward to gaining entry into Canadian Universities. The programme is delivered in conjunction with Lambton College, Canada.

The Foundation Year programme is particularly therefore suitable for students who wish to follow a fast track programme which broadens their knowledge, develops their practical skills and provides them with a sound educational base for degree level study.

These courses start in September or January and are designed to help students gain access into Canadian Universities.

Programme of Study

The courses studied during the International Foundation Year (IFY) are usually linked to the university course. There are two pathways; Business and Humanities & Science and Engineering.

PATHWAY TO USA UNIVERSITIES

SAT (Scholastic Achievement Test)

This is the major exam for admission and scholarships into undergraduate (Bachelors) level in the USA. There are two types (SAT I and SAT II). SAT I is an aptitude test in Maths, English and writing and it's a compulsory requirement for nearly all 4-year colleges and Universities in the United States. The highest score attainable is 2,400 & the exam is offered six times a year. It forms a major part of how International students are assessed for merit – based scholarship.

SAT II

SAT subject tests were formerly known as SAT II which are given to assess skills in specific area subjects which includes Math, History, Physical Science, Literature and Foreign Languages. The score is for 800 marks and it is only required by the university student seeking admission into Ivy League Universities in America.

TOEFL

The purpose of the Test of English as a Foreign Language (TOEFL) is to test the English proficiency of people whose native language is not English. It is a standardized test which evaluates the potential ability of a student to use and understand the Standard American English at College level. It is required by several colleges and universities in USA and Canada and all over the world.

The exams consist of 4 sections: Listening and Comprehension, Structure, Reading Comprehension and Writing. The highest score in the exam is 120.

IELTS

International English Language Testing System (IELTS) is a test of English Language proficiency. It tests a complete range of English Language skills. There is an option of choosing the academic module which is intended for

those who wish to enroll in universities and other institutions of higher education. The General training module is intended for those planning to undertake non academic training or to gain work experience or immigration purposes.

IELTS is accepted by most Australian, British, Canadian, Irish, New Zealand and South African Institutions and by an increasing number of academic institutes in the USA and by various professional organizations.

It is also a requirement for migrants to Australia and Canada.

Film Making
French

Students Governing Council

The Student Governing council is a body of elected students who meet regularly to represent the ideas and opinions of the students within the college.

They play a big part in college life in the following ways;
Organising Events and Activities

Raising issues about college life which concerns day and boarding students

Students Fellowship:

Christian Students come together every Wednesday to study the bible and build a good foundation.

Entrepreneurship:

Students are encouraged to learn and practicalise entrepreneurial schemes. They develop business acumen from this club.

Moots Club:

For the young lawyers to be, this club serves as an avenue to witness and participate in mock trials.

Einstein Club:

The aim of this club is to advocate young minds towards the development of scientific research methods, quality health and technological know how.

University Destinations

Every year our students gain entry to some of the most competitive courses at the UK's, Canadian, USA and Hungarian best Universities. Our success in assisting students to enter the best universities is founded upon the very high quality of the teaching we provide that is in turn reinforced by our effective student support programme.
